- Utilise surveying equipment such as total stations, GPS receivers, and levels to gather precise data.
- Analyze survey data and create detailed site plans, drawings, and reports.
- Collaborate with project managers, engineers, and construction teams to interpret survey findings and inform project design and execution.
- Ensure all surveying activities comply with industry standards, regulations, and the company's quality and safety procedures.
- Provide technical guidance and mentorship to junior surveying staff.

Requirements:

- Degree or diploma in Land Surveying, Civil Engineering, or a related field.
- Minimum1-3 years of experience as a Site Surveyor in the construction industry.
- Proficient in using surveying equipment such as total stations, GPS receivers, and levels.
- Excellent problem-solving, analytical, and technical skills to interpret survey data.
- Strong attention to detail and commitment to accuracy in data collection and reporting.
- Ability to work collaboratively with cross-functional teams and communicate technical information effectively.
- Familiarity with construction project management software and survey data processing tools.
- Must able to Outstation.
- Working Site might be KL, Ipoh, Penang or Johor.

What We Offer:
